SUMMARY

Full Stack Developer with hands-on experience in MERN stack (MongoDB, Express.js, React.js, Node.js) and Python backend frameworks like FastAPI and Flask. Built and deployed production-grade applications serving 20,000+ users, implementing REST APIs, authentication, RBAC, and scalable cloud architectures using AWS, Vercel, and VPS.

SKILLS

Languages	Python, JavaScript, PHP
Frameworks	React.js, Next.js, Node.js, Express.js, Laravel, Django, Flask, FastAPI
Databases	MongoDB, PostgreSQL, MySQL
Infrastructure	Docker, AWS, Cloudflare, Vercel, VPS
Concepts	REST APIs, Authentication, RBAC, Redis, API Integration
Tools	Git, Linux, Postman

EXPERIENCE

AWS Student Builder Group Leader Feb' 25 – Present
AWS Student Builder Group, Lovely Professional University

- Led a team of students in backend and cloud projects, mentored developers, reviewed code, and guided deployment strategies on AWS.
- Conducted technical sessions on deploying and scaling applications using AWS services.

Full Stack Developer – Client Systems (Freelance) Apr' 25 – Nov' 25
FounDev Studio

- Built and maintained production-grade backend systems for 4+ businesses.
- Implemented authentication systems, RBAC dashboards, and payment integrations.
- Improved deployment workflows using CI/CD pipelines and containerized services.

PROJECTS

CYNI Platform (Full Stack System) cyni.quprdigital.tk

- Developed a full-stack platform used across 300+ communities, serving 20k+ users with real-time features.
- Built RESTful APIs and backend services handling authentication, RBAC, and high concurrency workloads.
- Built responsive frontend using React/Next.js for real-time interaction.
- **Tech:** FastAPI, Express.js, React.js, MongoDB, PostgreSQL, Docker, Redis

Campus Operational Platform aws1pu.in

- Developed a full-stack platform serving 2000+ users with scalable frontend and backend systems.
- Built and integrated REST APIs, payment gateway, and webhook-based automation.
- Handled database design and API optimization for performance and reliability.
- **Tech:** FastAPI, NextJS, MongoDB, Google APIs, Supabase

Laravel Event Management System

- Built a full-stack event management platform with authentication and RBAC.
- Developed REST APIs for event registration and attendee management.
- Designed optimized MySQL schema for scalability and performance.
- **Tech:** Laravel, Rest APIs, MySQL

EDUCATION

B.Tech in Computer Science and Engineering 2023 – 2027
Lovely Professional University CGPA: 7.64
