Internship

AWS Student Builder Group Leader | *Next.js, FastAPI, Supabase, AWS, Cloudflare*

Feb 2025 - May 2026

AWS Student Builder Group

- Led a technical team responsible for developing and maintaining platforms supporting AWS Student Builder Group events.
- Architected and implemented full-stack features using Next.js, FastAPI, Supabase, and cloud services to streamline registrations, attendance, and operational workflows.
- Organized AWS Student Community Day Jalandhar 2025, the first AWS SCD in Punjab, supporting 800+ attendees through custom-built operational systems and digital workflows.

Full Stack Developer (Freelance) | *FastAPI, Next.js, PostgreSQL, Docker*

Apr 2025 - Nov 2025

FounDev Studio

- Engineered and maintained production-grade backend systems and REST APIs for multiple business clients, supporting day-to-day operational workflows.
- Developed authentication systems, role-based access control (RBAC) dashboards, and payment gateway integrations to streamline business processes.
- Improved application reliability through monitoring, deployment, and proactive issue resolution in production environments.

Projects

CyniGPT | *Python, PyTorch, SentencePiece*

Aug 2026 - Present

- Designed and developed a **7.4M-parameter Transformer language model** using PyTorch and a custom SentencePiece tokenizer.
- Implemented core Transformer components including multi-head self-attention, causal masking, feed-forward networks, positional embeddings, and autoregressive text generation.
- Developed an end-to-end training pipeline with checkpointing, custom corpus support, and configurable text generation.
- Repository: github.com/shashankpandey04/CyniGPT

CYNI Platform | *FastAPI, Next.js, MongoDB, Redis*

Jan 2023 - Present

- Created a robust community management network supporting over 40,000 active participants across 300+ groups by integrating specialized Discord automation, administrative dashboards, and backend services.
- Architected backend systems for moderation, ticketing, staff management, applications, logging, and community features.
- Implemented scalable REST APIs, Redis caching, and database optimizations to improve performance and reliability.
- Repository : github.com/shashankpandey04/CYNI

AWSLPD Digital Operations Platform | *Next.js, MongoDB, Supabase, Google APIs, Mailtrap*

Aug 2024 - Mar 2026

- Led development of a full-stack platform serving 2,000+ users for community and event operations.
- Optimized backend services and database queries to improve reliability, scalability, and response times for production workloads.
- Built attendance systems, event registrations, payment integrations, certificate generation, and workflow automation.

Certificates / Certifications

AWS Certified Cloud Practitioner

Jul 2026

Amazon Web Services - Certificate Link

AWS Cloud Practitioner Essentials

Dec 2024

Amazon Web Services - Certificate Link

Skills

Languages: Python, JavaScript, PHP

Backend: FastAPI, Django, Flask, Node.js, Laravel, REST APIs, Authentication & Authorization

AI/ML: PyTorch, Transformers, SentencePiece, NLP, LLM Training

Frontend: Next.js, React.js

Databases & Infrastructure: PostgreSQL, MongoDB, MySQL, Redis, Docker, AWS, Linux

Education

Lovely Professional University

2023 - 2027

Bachelor of Technology - Computer Science and Engineering - CGPA: 7.77

Phagwara, Punjab
